

What is Coronavirus?

The coronavirus is a virus that can make us feel poorly.

There are a lot of people with coronavirus at the moment and we need to keep everyone safe.

People who have the Coronavirus may have:

Sore Throat/
Dry Cough

Fever

Shortness OfBreath

Most people who have Coronavirus will stay at home to get better.

Some people who have the coronavirus will go to hospital to get better

This is ok

I can help stop the spread of germs by washing my hands with soap and water.

I can take my time when I wash my hands, making sure I wash between my fingers and all over my hands.

If I can't use soap I can use Hand Sanitizer.

This is good.

There will be **NO** school for me and my friends at the moment.

This is ok because we want to keep everyone safe.

School will be open again but we do not know when.

I will stay at home while school is closed and I will do lots of fun things! This will be good.

I **will not** be able to go out and visit places like I used to and this could make me sad. This is ok.

I know that I will be safe with my family/carers and they will help me not to feel, sad, afraid or anxious.

Everyone wants to feel safe and happy.

This is good!
