What comes after finishing school?  
How will I get the help that I need?  
Where will I live?  
What will I do in my spare time?  
How do I make sure I stay safe?  
How can I develop my independence?  
How do I plan for my future?

These may be some of the things that you think about as you get closer to being an adult and the earlier you start planning the easier it can be to navigate through this period of life.

This exhibition will bring together a whole range of providers and services which will help make transition planning even easier.
