Dear parents / carers,

As we try to continually improve our provision during this difficult time we have secured access to Boardmaker Online and its Student Centre features.

This will allow your child's teaching team to create fun and interactive learning activities specifically for your child in a format that they would be used to from school. The greatest thing about this platform is that teaching teams will be able to make more effective use of symbols to support your child's understanding.

All of the activities produced can either be accessed via a desktop computer, or via a tablet and can either be completed electronically or printed off.

In order to fully utilise these new features teaching teams will need to set students up with a personal account. This will require them entering a student name. In order to more efficiently share the activities etc. they will also need to enter a parental email address.

Some of the activities provided will report on student performance which is helpful for the teaching teams when planning future activities.

The data that is shared will only be viewable by school staff and will be stored by Boardmaker online using a Microsoft Azure Cloud Service which is a highly secured Tier 1 Data Centre. At any point the data can be deleted by school staff.

If you do not want your child to be set up with this superb learning opportunity please opt out by communicating with your child's class teacher or with the school directly by Wednesday 13th May 2020.

If you have any further questions regarding this then please contact myself directly via email using craig.tucker@newsiblands.org.uk.

Warm regards

Craig Tucker

Strategic Lead of ICT and E Safety
